Source: Institutional Research. Unduplicated headcount of enrollment for the 12-month period, July-June. Excludes Non-degree students. F/T status is based on total hours attempted throughout the period; 30 or more if an UG, 24 or more if a GR.

Students are counted once, based on their status as of their first term of attendance during the period. Methodology changes: prior to 2020-21, status was instead based on the highest level (UG/GR) achieved during the period. Prior to 2019-20, results were originally reported based on the last term of attendance at the highest level, but were later revised (as shown here) to reflect the first term at that level.
