Source: Institutional Research. Cohort = First-time, full-time, bachelor's degree-seeking students (as of fall census).

> Columns - entering cohort, as defined by their entry year (fall term). Decreases in a cohort's Initial Headcount over time reflect the exclusion of deaths that occurred within the stated interval.

> Rows - status at each interval after entry (as of fall census): Returned = Enrolled at DB or PC (any degree program). Attrited = Not enrolled at DB or PC.

Change in Ethnicity reporting - Before 2010, students self-identified by selecting only one of the following: Hispanic/Latino, American Indian/Alaskan Native, Asian, Black/African American, White. As of 2010, students instead first identified themselves as to whether or not they were Hispanic/Latino, then further as one or more of the following: American Indian/Alaskan Native, Asian, Black/African American, Native Hawaiian/Pacific Islander (new), White. The results are summarized according to the following hierarchy:

- (a) Nonresident Alien (Int'l Students)
- (b) Hispanic/Latino
- (c) each of the five ethnic categories (if only one was chosen)
- (d) Two or more races (if more than one of the five categories was chosen).

Greyed out cells are unavailable either due to the 2010 reporting change or an internal system issue that was later discovered to have misclassified those in the Hispanic/Latino, Two or more, or Unknown categories.
