Overall figures for unduplicated headcount (each student counted once, regardless if they are currently enrolled in both an undergraduate and graduate program) have been calculated and are presented in this fact sheet. Note that, unlike previous fact sheets, **the Summer A and Summer C terms have been combined**. Henceforth, a separate fact sheet for Summer C terms will no longer be generated, but overall statistics will be provided to indicate the enrollment distribution amongst the terms.

Summer A and C 2000 enrollment has increased since Summer A and C 1999 on the Daytona Beach campus (1999 figures have been combined to facilitate exact comparisons). The undergraduate enrollment at Daytona Beach is a 15.0% increase, and the graduate enrollment is a 30.4% increase from last year. Summer A 2000 enrollment on the Prescott Campus has decreased 6.5% since Summer A 1999 (Prescott doesn't offer a C term).
